[Ask a question about this product](#)

This passive video balun connects up to four BNC coax cables to 8-conductor twisted pair cables (RJ-45). Compact size, can be screwed down. Transmits color video signals up to 400 meters (437.4 yards) or b/w video up to 600 meters (656.2 yards). Distances of up to 1 kilometer when used with active baluns. Built-in noise filter. Cost saving: Eliminate long runs of coaxial cable. Category 5 (CAT 5) wire recommended.
